

QTE Now Licensed to Decommission Underground Storage Tanks and Offer Residential Radon Testing

Quality Testing and Engineering, Inc. is pleased to announce that Soil Scientist, Mr. Wayne Smith has successfully completed the Underground Storage Tank (UST) Decommissioning examination. QTE will now be licensed by the State Fire Marshals office to decommission underground storage tanks.

Quality Testing and Engineering is also pleased to announce that Project Manager, Mr. Chad Martens has recently been licensed by the Illinois Emergency Management Agency as a Radon Measurement Professional. In addition to their geotechnical engineering, construction materials testing, and environmental consulting services, QTE will now also offer residential radon testing.
