

## **Why Martin Chose Quality Testing and Engineering, Inc.**

Quality Testing and Engineering, Inc. (QTE) has an extremely knowledgeable, as well as a very skilled, and responsive staff who will bring over 100 years of combined education and experience to this project. QTE has been selected to perform the preliminary geotechnical exploration for Martin Aviation Group. The preliminary geotechnical exploration will help to determine the soil and water table conditions prior to a formal full-blown geotechnical report which will aid in the design of all structures at the "Golden Mile." Once construction commences, QTE will be performing the monitoring and inspection of all construction materials to ensure project plans and specifications are met or exceeded.

## **Quality Testing and Engineering, Inc.**

Quality Testing and Engineer, Inc. was founded by Michael A. Widman in April of 2000 to provide a wide variety of construction material testing, geotechnical engineering, and other development services. The company soon gained a reputation for providing quality, timely service. Within two years of operation, QTE experienced substantial growth. This warranted additional professional staff. To better address the growing needs of their clients, QTE expanded services to include environmental, archaeological, and wetland consulting. A dedicated professional staff and state-of-the-art technology assure QTE's ability to continue its tradition of premium service to their clients. QTE's excellent reputation began to earn substantial recognition in Missouri resulting in the opening of QTE's regional office in Wentzville on March 1, 2006.

QTE has completed geotechnical services on over 8 million square feet of warehouse facilities just at the Gateway Commerce Center alone in Madison County, Illinois. Various projects that QTE provided professional services to include: individual home owners and up to large power plants and refineries such as the Prairie State Energy Campus in Lively Grove, Illinois and ConocoPhillips Refinery in Wood River, Illinois.
